 - Original Invoice sealed
 - CT-1 certificate (confirming the origin of the goods): original and copy certified by the Chamber of Commerce
- A way and cost of delivery of parcels with dimensions and weight exceeding the maximum ones is additionally coordinated.
-

How to calculate Door-to-Door Delivery

1. Identify the code for rate zone for your shipping/destination Kazakhstan city in the Rate Zones. Kazakhstan Cities table on page 2.
2. Find weight which corresponds to the weight of your shipment in the leftmost column of the Door-to-Door Rate table on page 2.
3. Rate of your shipment is at the intersection of the weight line and column with the applicable code of rate.

Example: You need to deliver the consignment weighing 70 kg from Almaty to Bishkek to the door of the addressee.

1. Code of the rate zone for Almaty is 2.
2. Weight of your shipment is 70 kg, the nearest weight in the rate table is 50 kg.
3. Rate for 50 kg is 4,950 tenge, rate for subsequent kilogram is 90 tenge. Thus, rate for 70 kg is:
 $4,950 \text{ tenge} + (70 \text{ kg} - 50 \text{ kg}) * 90 \text{ tenge} = 6 750 \text{ tenge}$
